

To SEC:

Concerning 17 CFR Part 240 [Release No. 34-90769; File No. S7-23-20]

**“Notice of Proposed Conditional Exemptive Order Granting a Conditional Exemption from the Information Review Requirement of Amended Rule 15c2-11(a)(1)(i) and the Recordkeeping Requirement of Amended Rule 15c2-11(d)(1)(i)(A) under the Securities Exchange Act of 1934 for Certain Publications or Submissions of Broker-Dealer Quotations on an Expert Market “**

I have found the inability to buy certain OTC penny stocks a hindrance. The proposed rule above does little to help us that own large positions. The new proposal will give the rich the ability to trade this class of “elite” OTC yet the common man no matter how educated can not unless he is ultra rich. How is this even remotely a fair market?

Are rich investors simply smarter? I’ve been trading for 30 years. Now I am unable to add more b/c I’m not ultra wealthy?

The simple solution rather than block the public's access to see much less trade stock is to simply have us sign a waiver.

Presto, problem solved.

Please modify this rule so the average man can have a level playing field.
